Supplementary file 4: Excluded studies and Reason for Exclusion

Reason for Exclusion	**Number of studies**
Not study design of interest (e.g. study is an editorial, commentary, correspondence, letter or news)	135
Does not focus on a prioritization tool or approach	1,043
Does not focus on public health, health systems or clinical fields	13
Research is not the focus of prioritization	432
Total	1,623

Study Title (excluded studies)	**Reason for Exclusion**
Aakvik, A., Holmås, T. H., & Kjerstad, E. (2015). Prioritization and the elusive effect on welfare–A Norwegian health care reform revisited. Social Science & Medicine, 128, 290-300.	Does not focus on a prioritization tool or approach
Aarons, G. A., Fettes, D. L., Hurlburt, M. S., Palinkas, L. A., Gunderson, L., Willging, C. E., & Chaffin, M. J. (2014). Collaboration, negotiation, and coalescence for interagency-collaborative teams to scale-up evidence-based practice. Journal of Clinical Child & Adolescent Psychology, 43(6), 915-928.	Does not focus on a prioritization tool or approach
Aas, K. (1988). A review of interdisciplinary problems and priorities. A computerized tool for a complete diagnosis, priorities and follow-up in chronic disease. Tidsskrift for den Norske laegeforening: tidsskrift for praktisk medicin, ny raekke, 108(27), 2267.	Not study design of interest
Abarca, C., C. M. Grigg, J. A. Steele, L. Osgood and H. Keating (2009). "Building and measuring	Does not focus on a prioritization tool or approach

infrastructure and capacity for community health assessment and health improvement planning in Florida." Journal of Public Health Management & Practice 15(1): 54-58.	
Abdalrahman, I. B., et al. (2021). "Use of intensive care unit priority model in directing intensive care unit admission in Sudan: A prospective cross-sectional study."	Research is not the focus of prioritization
Abdool Karim, S. S., G. J. Churchyard, Q. A. Karim and S. D. Lawn (2009). "HIV infection and tuberculosis in South Africa: an urgent need to escalate the public health response." Lancet 374(9693): 921-933.	Does not focus on a prioritization tool or approach
Abel-Smith, B. (1972). Health priorities in developing countries: the economist's contribution. International Journal of Health Services, 2(1), 5-12.	Research is not the focus of prioritization
Abel-Smith, B. (1992). Cost containment and new priorities in the European Community. The Milbank Quarterly, 393-416.	Does not focus on a prioritization tool or approach
Abelson, J., Eyles, J., McLeod, C. B., Collins, P., McMullan, C., & Forest, P. G. (2003). Does deliberation make a difference? Results from a citizens panel study of health goals priority setting. Health Policy, 66(1), 95-106.	Does not focus on a prioritization tool or approach
Abelson, J., Giacomini, M., Lehoux, P., & Gauvin, F. P. (2007). Bringing 'the public'into health technology assessment and coverage policy decisions: from principles to practice. Health policy, 82(1), 37-50.	Does not focus on a prioritization tool or approach
Abma, T. A., Nierse, C. J., & Widdershoven, G. A. (2009). Patients as partners in responsive research: methodological notions for collaborations in mixed research teams. Qualitative health research, 19(3), 401-415.	Does not focus on a prioritization tool or approach

Abraham, C., M. P. Kelly, R. West and S. Michie (2009). "The UK national institute for health and clinical excellence public health guidance on behaviour change: a brief introduction." Psychology, Health & Medicine 14(1): 1-8.	Does not focus on a prioritization tool or approach
Abraham, J. M., T. DeLeire and A. B. Royalty (2009). "Access to health insurance at small establishments: what can we learn from analyzing other fringe benefits?" Inquiry 46(3): 253-273.	Does not focus on a prioritization tool or approach
Abramo, G. and C. A. D'Angelo (2009). "A decision support system for public research organizations participating in national research assessment exercises." Journal of the American Society for Information Science & Technology 60(10): 2095-2106.	Does not focus on a prioritization tool or approach
Abrams, F. R. (1990). Prioritization or rationing: what do we call spending fewer health care dollars?. The Internist, 31(7), 6-8.	Not study design of interest
Abubaker, W., & Abdulrahman, M. (1996). Quality assurance guides health reform in Jordan. QA brief, 5(1), 19.	Does not focus on a prioritization tool or approach
Acerini, C. L., Craig, M. E., De Beaufort, C., Maahs, D. M., Pillay, K., & Hanas, R. (2014). Introduction to the Limited Care Guidance Appendix to ISPAD Clinical Practice Consensus Guidelines 2014. Pediatric diabetes, 15, 279-80.	Not study design of interest
Acharya, S., et al. (2021). "Development of a composite indicator to prioritize districts for implementation of human immunodeficiency virus programmes in Maharashtra, India."	Research is not the focus of prioritization
Achutti, A. (1987). "[Cardiology and public health: considerations on the approach of cardiovascular diseases in public health]." Arquivos	Does not focus on a prioritization tool or approach

Brasileiros de Cardiologia 48(5): 271-274.	
Adam, T., & Ghaffar, A. (2011). Strategies for increasing the impact of research on human resources for health policy development. Revista peruana de medicina experimental y salud publica, 28, 323-326.	Does not focus on a prioritization tool or approach
Adams, R., Jones, A., Lefmann, S., & Sheppard, L. (2016). Service level decision-making in rural physiotherapy: Development of conceptual models. Physiotherapy Research International, 21(2), 116-126.	Does not focus on a prioritization tool or approach
