

Correction: *Empiricism in non-communicable disease mortality measurement for the Asia-Pacific: Lost in translation*

Rao C, Kelly M. Empiricism in non-communicable disease mortality measurement for the Asia-Pacific: lost in translation. *BMJ Global Health* 2020;5: e003626. doi: 10.1136/bmjgh-2020-003626

In the published version the introductory sentence under section heading “UNESCAP SDG database” was missing. We have now corrected the article to include the below sentence:

The UNESCAP database describes the availability and quality of data used for deriving these NCD mortality trends in each country according to the following three category scale.^{5 13}
