#武汉封城#虽然官方发布了武汉封城的消息，我才知道我小舅在武汉。是因为这两天我一直在亲人团里面发关于新型病毒感染传播的消息，让大家提高警惕，出门戴口罩。到夜里收到小舅的回应，他给我发来视频，我感觉他身在武汉没有一点危机感，我劝他尽量别出去，戴口罩，他却告诉我死不了！他问我知道冠性病毒是怎么引起的吗？我当然是通过官方的新闻钟南山院士的分析告诉他，野味引起的。他却堂而皇之地告诉我，是外国人投放的病毒，最初是广东那边传过来的，头头是道.....我听不下去了，就挂断了，随后小舅再次发来两遍视频都被我拒绝了，我不知该如何改变他的谬论和无知的态度，我只能在亲友团里面发一系列的报道整个病毒的来龙去脉讲一遍...这只是小舅一个人的回应，其他人还没有吱声，不知道怎么想的，我太失望了 😞

#WuhanLockdown Although the official announcement of Wuhan's closure of the city, I only knew that my uncle was in Wuhan. It is because I have been sending news about the spread of new virus infection in the family group for the past two days, so that everyone should be vigilant and wear a mask when they go out. At night, when I received my uncle's response, he sent me a video. I didn't feel that he had any sense of crisis in Wuhan. I advised him not to go out as much as possible and wear a mask, but he told me that I couldn't die! He asked me if I know how the coronavirus is caused? Of course, I told him through the analysis of the official news academician Zhong Nanshan that game is caused by it. He told me openly that the virus was launched by a foreigner. It was originally from Guangdong, and it was utterly eloquent... I couldn't listen to it, so I hung up, and then my uncle sent the video twice and was rejected by me. I don't know how to change his fallacy and ignorant attitude. I can only post a series of reports on the whole virus in the relatives and friends' group. I know what to think, I'm so disappointed 😞

#NationalCovidNewCases. Based on the news released by People's Daily Online, I have sorted out the current situation of patients who have died after being diagnosed with the new coronavirus in China. Most of them are older men with many previous histories. Translation: The deadliest by the virus are patients with poor resistance and physical fitness. Remind the middle-aged and elderly people around them that, as a high-risk group, they must pay special attention to prevention. for reference only. #EpidemicMap #WuhanLockdown
