

Supplementary file 8: Failure frequency by region of the stated manufacturer in prevalence surveys

Because of the limited number of samples tested for quality in the studies included in this review, the figures should not be interpreted as representative of the prevalence of specific SF cardiovascular medicines (please refer to the discussion section of the current paper for more details)

Failure frequency is defined as the proportion of samples that failed at least one quality test

Continent	Failure Frequency n/N (%)
Americas	50.0% (3/6)
Africa	17.5% (37/211)
Asia	15.9% (118/744)
Europe	8.2% (85/1,035)
Unknown	19.9% (282/1,418)
Total	15.4% (525/3,414)
