Voices articulating research priorities

## How would you spend \$1 million on COVID-19 gender research grant money?

Develop infrastructure along the research pipeline- funding agencies, reviewers, editors, etc- that ensures that biological sex and/or gender is accounted for both in design and analysis of all research trials.

Jeannette Wolfe  
Professor of Emergency Medicine  
University of Massachusetts-Baystate, USA

#ResearchAgendaSetting

UNITED NATIONS  
UNIVERSITY  
UNU-IIGH

Gender &  
Health Hub

## How would you spend \$1 million on COVID-19 gender research grant money?

Identify the health and safety needs of women and LGBTIA+ and form responsive programs around access to health services, safe return to work and safe work environments.

Jackielyn Ruiz  
Instructor  
University of the Philippines, Manila

#ResearchAgendaSetting

UNITED NATIONS  
UNIVERSITY  
UNU-IIGH

Gender &  
Health Hub

## How would you spend \$1 million on COVID-19 gender research grant money?

I would use the money to carry out participatory studies to help women and children in my country. I would build shelters for women and girls who are victims of Gender Based Violence

Grace Maria Kentaro  
Lecturer/PhD Student  
Makerere University, Uganda

#ResearchAgendaSetting

UNITED NATIONS  
UNIVERSITY  
UNU-IIGH

Gender &  
Health Hub

## How would you spend \$1 million on COVID-19 gender research grant money?

Qualitative research and analysis of pathways for gender mainstreaming in the health system in the context of covid-19 policy and action

Yasmeen Qazi  
Senior Advocacy Consultant  
BMGF through RIZ Consulting, Pakistan

#ResearchAgendaSetting

UNITED NATIONS  
UNIVERSITY  
UNU-IIGH

Gender &  
Health Hub

How would you spend \$1 million on COVID-19 gender research grant money?

Strengthen capacity and networks between Southern countries and institutions for conducting gender and covid-19 research through peer-to-peer mentorship, training, and exchange between institutions.

Veloshnee Govender  
Scientist  
WHO, Switzerland

#ResearchAgendaSetting

UNITED NATIONS  
UNIVERSITY  
UNU-IIGH

Gender &  
Health Hub

How would you spend \$1 million on COVID-19 gender research grant money?

I would divide the 1 million into 2 parts - 1/3rd of the money will be for research, and the rest 2/3rd will be for grass roots community engagement and support.

Sri Hari Govind  
Director  
Global Health Youth Foundation, India

#ResearchAgendaSetting

UNITED NATIONS  
UNIVERSITY  
UNU-IIGH

Gender &  
Health Hub

**?** How would you spend \$1 million on COVID-19 gender research grant money?

“ Research on how Intellectual Property protections on COVID-19 vaccines, diagnostic tools and therapeutic treatments within a pandemic has a disproportionate impact on women, and particularly marginalised and underserved groups in the Global South. ”

 **Marlise Richter**  
Senior Researcher  
Health Justice Initiative, South Africa

@genderhealthhub

...

@RosemaryJMorgan, co-lead of Thematic Grp 3 on Health Service Delivery in the #GenderCOVID19 #ResearchAgendaSetting initiative shares with us why strategic research is needed.

Tell us what research you think is important on [ghhbuzzboard.org](https://ghhbuzzboard.org)!

**Why #GenderCOVID19 #ResearchAgendaSetting?**

*"Data is power. If we are to effectively advocate for policies and interventions that address gender inequities related to COVID-19, research is needed which explicitly looks at the intersectional gendered health, social, and economic effects of COVID-19 and the impact on women, men, and gender minorities."*

**Gender & Health Hub** @genderhealthhub · Dec 10, 2021 ...

"In India, sex-disaggregated data is available in vaccinations but not on infections, mortality, let alone an intersectional approach. It's not that information is not available; it's that it doesn't get reported," notes @gita\_sen

[#GHHForum2021](#) [#ResearchAgendaSetting](#)

DAWN and 2 others

**Gender & Health Hub** @genderhealthhub · Dec 10, 2021

Panelists answer key questions on Gender & COVID-19

**#ResearchAgendaSetting:** Do the research priorities identified resonate with priorities in your field, country, or region? What are the immediate opportunities & next steps for the agenda to be implemented?

“  
It is clear that sex and gender must be included in research investments informing immediate COVID-19 care and action, as well as long-term recovery.  
If not, scientific solutions will remain inadequate for a large part of the population and further delay the achievement of health and wellbeing for all.  
”
